

New Parent Portal in PowerSchool

The Parent Portal has been upgraded in PowerSchool. The new portal allows each parent/guardian to create an account with their own unique User Name and Password, reactivate passwords if necessary, and link multiple daughters to one account. The email notification feature is also enabled this year for better communication.

Create an Account

Create a parent/guardian account that allows you to view all of your students with one login account. You can also manage your account preferences. [Learn more.](#)

The new portal was activated on September 15, 2010. In order to access the NEW portal for the first time you must **Create an Account**.

On the next screen, complete the top information for a Parent/Guardian. Complete your student's information using the Parent/Guardian Access ID and Access Password provided on the back of this paper. Once submitted, any additional parents/guardians can create their own account with the same parent/guardian access codes.
